RELIGIOUS FIGURES

Father Sophronius

04.10.2013 A strange document was appeared on the web-site of the Supreme court, that father Sophronius, the missionary with the Russian passport, deported from Kazakhstan. But a regional court accepted a straight opposite decision in that day. In the resonant case of deportation of father Sophronius (in the world - Peter Evtiheev, a Russian citizen) for the last two days had been two high-profile events. The second event is full of mysticism.

02.10.2013 the appeal board of the Almaty regional court decided not to deport father of Sophronia Kazakhstan.

However on other day 03.10.2013 the supporters of father Sophronius and mass-media were agitated by appearance on the web-site of the Supreme court of decision, according to that father Sophronius, vice versa, is subject to deportation from Kazakhstan. Azattyk correspondent tried to understand this strange event.⁹

As is generally known, father Sophronius manages child's shelter of " Radonezh", located on territory of Ili district. More than hundred guys live in establishment. The organs of guardianship and patronage of district not once accused him of beating of the ward. Indeed, for laying an action evidences were not always enough. Also he was put on a trial for violations of tax law and sanitary norms.¹⁰

Vyacheslav Lee

7.10.2013 A protestant pastor Вячеслава Ли, justly living in Kazakhstan eight years, was deported for the feausance of eight administrative crimes.

E. Zhovtis said to organization of Forum 18, that administrative crimes were "used as a pretext for turning out of pastor from a country", and that it is "violation of principle of proportionality of punishment and guilt".

In opinion of V. Lee’s wife Bota, the legal founding for deportation was "used professionally. They do not want to show that it happened from his religious activity".

From eight administrative crimes imputed to the pastor, four related to violation of rules of travelling motion, two - with un advising of Kazakhstan authorities about the journeys for a border, and one - with the sphere of taxation. He was also fined as a leader of church on violation of fire safety rules. In all cases he paid a fine and did not give on an appeal. In opinion of Evgeny Zhovtis, it is "typical religious business", and if deported all, having fines for violation of rules of travelling motion, "foreigners practically would not remain".¹¹

Bayahmetov ruled - to release the pastor of the Presbyterian Church "Grace" Bahytzhana Kashkumbaeva due to poor health , change the measure of restraint on house arrest. Three years back Kashkumbayev carried a heart attack, for him phlebeurysm, and he needs hospitalization.

- The court's decision is subject to immediate execution. But he wasn't released , because the working day is over , and prison workers , who had to issue the relevant documents have not been in the workplace - said Kashkumbaev's lawyer Nurlan Beisekeev .

According to an advocate, another very important moment consists in that a new criminal case for extremism follows from previous, about a damnification to the health.

On Monday was examined a question about the extension of time of arrest in connection with setting of judicial psychological and philological examination, and that it is only appointed, and yesterday the prepared conclusion is present already, on the basis of that a new criminal case is excited.

- On Monday, addressed the issue of the extension of his arrest in connection with the appointment of judicial psychological and philological examination , and that she had just appointed , and yesterday there is a ready-made conclusion , based on which a new criminal case . I regard this as misleading as the supervisory authority and the judiciary - said Nurlan Amanzholovich . - Moreover, the investigation has not acquainted us with the decision to extend the detention , although they were obliged to . Thus deprived us of the right to appeal . I urgently summoned to court .

After analyzing the events , the lawyer came to the conclusion that the court , to release from arrest Kashkumbaeva was aware of a new criminal case.

- I guess the whole system was aware of the fact that today happen. It was a performance to create the appearance that the country respects human rights - suggests N. Beisekeev and again trying to draw attention to the current situation around the pastor . - My client requires medical assistance. According to the International Covenant on Civil and Political Rights, lack of medical care amounted to torture . Provision of medical care in the walls of the insulator is not possible.¹²

11. 10.2013 , the pastor brought a new charge, this time in extremist activity , and arrested one month. A warrant of arrest issued by a judge of the district court number 2 Almaty district of Astana Nurlan Bayahmetov evening October 10.

According to the lawyer pastor Nurbayeva Riza , a criminal case against B. Kashkumbaeva filed under Article 233-1 , part 2 - "Propaganda of terrorism or extremism ."

Tuesday, October 7, the judge N. Bayahmetov be ordered to change the preventive measure pastor from detention to house arrest with the wording " for health reasons ". However, home pastor and did not hit - B. Kashkumbaeva arrested Oct. 8 at the exit from the detention center .¹³

16.10.2013 , the Pastor taken into custody immediately after his release from jail on new charges of promoting extremism . The essence of this case remains unclear .

New twist in Astana pastor , who was taken into custody 08/10/2013 in the first minutes of the long-awaited release, shocked defenders. The decision on the arrest of 10.10.2013 of this year, states that B. Kashkumbaev accused of committing a crime under Article 233-1 part 2 of the Criminal Code . " It belongs to the category of serious and carries a high degree of public danger ."

" The basis of the charges Kashkumbaeva BK expert opinion put number 5225 from 27.09.2013 , under which activities in the PO "Grace" has a propaganda of extremism . "¹⁴

21.10.2013 , the pastor left under arrest. Monday 21.10.2013 Astana City Court dismissed the complaint N. Beysekeev .¹⁵

25.10.2013 , the "I have to the same dramatic complication of chronic otitis occurred and legs ached as well as continue to hurt from edema , apparently, from the patient's heart " - writes Kashkumbaev .

If earlier the pastor asked to release him under house arrest , now asks , if not transferred from one chamber to another . According to him, from October 10, it is in the so-called quarantine , and he was transferred from cell to cell , while not allowed to take with them their personal effects , and even medicine. "They know that I'm sick , but , nevertheless , bring me suffering," - says the pastor .

Medical examination and treatment , which he requests that during the month , while only consisted in conducting electrocardiograms, the results of which he did not show .

Besides B. Kashkumbaev complains that can not eat prison food , by whom he had a stomach ache . Powered pastor that he will bring relatives .

Lawyer N. Beisekeev believes that the pastor has the right to health and the definition of the previous trial under house arrest rather than in prison. He tried to appeal rearrest pastor the new criminal case " of extremist propaganda ," but 21.10.2013 Astana City Court dismissed the lawyer.

- It seems that everyone is waiting for that something happened to him . Investigator to him after his arrest never came . With any expert opinion , in particular, in connection with which filed a new lawsuit , never introduced , thereby depriving him of the right to defense . According to the International Covenant on Civil and Political Rights , described in letters Kashkumbaeva recognizes torture , - said N. Beisekeev .¹⁶

Release from arrest Kashkumbaeva pastor urged the U.S. Commission on International Religious Freedom . American organization stated that the case Kashkumbaeva coupled with two years ago adopted a restrictive law on religious activities have damaged the international image of Kazakhstan, substantially limit the rights of many citizens of Kazakhstan to freedom of religion .¹⁷

Myrky Akpanbetov

In Zheskazgan city began a trial on a lawsuit Ltd. "ZheskazganEnergoSbyt" to chairman "Aksakaldar alkasy" Umirzak Ospanov, to ex- leader Veteran organization of Zheskazgan Myrky Akpanbetov, and also to chairman "Baikonur" Amanzhol Daukenov. An Energysupplying company accuses aksakals of slander, for that they named them swindlers. Aksakals on behalf of public of Zheskazgan city proved long time, that Ltd. "ZheskazganEnergoSbyt" by using fraudulent schemes, overstating the cost of energy, robbing people.

Ltd. "ZheskazganEnergoSbyt" is an energysupplying company of Zheskazgan city, the founders of that were former high-up managers of the Fuel and energy complex (ТЭК) "Kazakhmys" gentlemen Bukashkin and Korobovski. Ltd. "ZheskazganEnergoSbyt" declares at short notice, that to these gentlemen they have no relation. And in "Kazakhmys" from them disavow, it is said that such people do not work already for them.

But public can not be deceived, all know, who stands after this company.

Another fact, which proves that behind this company there are influential people, it when Serik Akhmetov still, being Akim of the Karaganda region, on one of meetings, having listened to aksakals, having convinced of an extortionate orientation of Zhezkazganenergosbyt LLP gave command to dissolve with them the contract and to involve other operator. But, as we see, Zhezkazganenergosbyt LLP is well and on nowadays.

Earlier already there were oppressions of aksakals, with scandal were brought out of the management of Council of veterans of Zhezkazgan. Now 80-year-old aksakals publicly and humiliating judge that another nepovadno was. And all because aksakals dared to call Mr. Ogai the thief.²⁷

Respected elder of Zhezkazgan city Myrky Akpanbetov accused in a lawsuit LLP "Zhezkazganenergosbyt" against veteran guests commented to us on the situation. In Kazakhstan, the law is not retroactive, but in their case, it turns all the way around. They complained to the authorities, law enforcement agencies about the exorbitant appetite utility company in Zhezkazgan, and in the end found themselves in the dock. According to elder, this court can not be objective, because no participants in those events. Then head of Karaganda region Serik Akhmetov, now Prime - Minister, another former akim of Karaganda region Abalgazy Kusainov headed union republic. Since the event had three akim deputy oversaw these questions. There is no longer of the two ex-akims of Zhezkazgan Berik Abdigaluly and Baurzhan Shingisov, direct participants in those events. It is not known where the ex-senior managers of Fuel and energy complex (FEC) "Kazakhmys" - gentlemen Bukashkin and Korobovsky first founders LLP "Zhezkazganenergosbyt." Without them it is impossible to consider the survey this lawsuit. According to elder, all this business venture to publicly humiliate them.²⁸

In Zhezkazgan City Court held the second day of the trial on the lawsuit LLP Zhezkazganenergosbyt "against veteran organizations in the city. At the beginning of the presiding judge forbade Zh.Masenov video footage, explaining that he had already called after the first trial. He did not say who called him, but noted that the caller was indignant that the first day of the trial can be found in the public domain in the internet. On our objection, if process open, and this business has public interest, why not to let to conduct a videosurvey, judge

Masenov did not give us distinct answer. Vice versa, began to threaten to us, asked us, whether we executed his decision, when he obliged us to pay half a million tenge for our ex- employees. The judge Masenov without any investigation, without any proofs satisfied the claim of our ex-employees bribed by the authorities. Having mentioned that business which has no relation to considered business, the judge Masenov let to us know that if we will behave in this way further, he once again will condemn us. But we never were afraid of threats we will do the work further.

Along the way, elders petitioned that want to adduce a number of articles published in the media, criticizing the activities of LLP "Zhezkazganenergobyt" and its founders. Court scrupulously examining these articles, granted the request.

All acting aksakals asked court to provide the reference from the power supplying company as the tariff for the electric power now pays off. Having exactly studied these schemes, it is possible to learn why aksakals accuse "ZhES" LLP of fraud. In turn "Zhezkazganenergobyt" LLP refuses to provide such information, referring to a trade secret. Aksakals insist that all essence of this trial and consists in these roguish schemes. The judge Masenov didn't satisfy this petition. Together it he decided to hear the guide of the former power supplying operator of Zhezkazgan of JSC "Gorelektroset" at the following meeting. The following meeting will take place 25.10.2013.²⁹

Igor Larra

16.10.2013. Well-known in Aktobe city a journalist Igor Larra died 12.10.2013. He was one of not many workers of the press, that bravely wrote about the problems of region. Native a journalist is counted, that he was killed from professional activity, taking advantage of the helpless state.

- At the end of the death wrote the same diagnosis, pancreatic necrosis. But what else could write the doctors? Before his death, Igor became better, performance improved at a time, we thought that he will recover, he could say to me recently, "I love you" – Igor's crying widow Natalia Kim.

Close journalist not believe that death was natural, not exclude that Larry "helped" to die.

- Igor wrote on pressing socio -political issues , criticized the leadership of the region , exposing the corrupt , so the enemies he has had enough . I do not exclude that it could help to die , it was a holiday , so most doctors rested. No guard at the hospital was not, if you wish there could have gotten anyone. Several times I talked to the emergency hospital chief doctor , he assured me that everything you need in case of emergency at the hospital there and Igor will be a special control, as it turned out , no special control was not , - says Aidos Sadykov .³⁰

Public Association "Dignity" expresses condolences to the family of Igor.

"Three years of prison threaten journalists of the regional weekly "Petrovsk kz. " to Ekaterina Nazarenko and Olga Vaytovich for an insult and slander. Four complaints are filed a lawsuit against them.

The reason the prosecution served a series of publications "Wolves in sheep's attire," in which current rises for grain region theme of the failure of the international contracts of exports of flour, which may adversely affect the image of the region and the whole of Kazakhstan. It is quite obvious that the topic of public importance: the material caused a great resonance among readers. However, two months after the first article to the court by the director of grain processing LLP "Demetra", then public figure Tokbergen Abiyev and widow entrepreneur. All they accuse journalists of libel and insult, require to prosecute.

Newspaper " Petrovsk kz. "exists ten years and is one of popular editions in a region. There are not large business corporations in the number of her founders, a newspaper does not get money from the state budget. The "R-Studio"

On October 23 to the R-STUDIYa site administrators received the letter from PS Internet Company LLP which provides to this resource of service of a hosting arrived. The hosting company notifies that they received the letter from RGP "Gostekhsluzhba" of the Ministry of transport and RK communications with the requirement to block access to the domain name "R-STUDIYa" (rstudio.kz). As the basis for the termination of activity of a site of RGP refers to the judgment which has come into force about closing "uniform" mass media "Republic".

As the journalist of "R-STUDI" Oksana Makushina reported, they contacted the chief of Service of response to computer incidents of RGP "Gostekhsluzhba" of the Ministry of transport and communications of RK on behalf of whom the letter was sent to the hosting company. He reported that to them the letter from the Prosecutor General's Office of RK with the copy of the judgment on closing "uniform mass media "Republic" arrived. Thus, as Makushina notes, claims were that on rstudio.kz materials of the closed editions take place.

Taking into account that a web-site "R-Studio" has no attitude toward "single to MASS-MEDIA "Republic" and created after an entry by virtue of decision about closing of "Republic", administration of "R-Studio" counts reference of RSE to the decision of the Medeu court Almaty city from 25.12.2012 groundless and illegal.

We will mark that on the pages of web-site translated and proposed only video data, but not newspaper articles. Oksana Makushina supposes that the mention placed on a web-site did not please the office of public prosecutor that "R-Studio" is a new project of journalists working in "Voice of republic".³³

Igor Novikov

16/10/2013, the Russian authorities made illegal actions against Kazakhstan lawyers, said a member of the Almaty City Bar Alexander Rosenzweig.

"In dwelling and office of lawyer Igor Novikov (Rosenzweig is the client KazTAG) by forces of investigators of inquisitional committee of Russian Federation was produced a search, and also is a coulisse bank and another documentation, personal things. The search was carried out actually by investigators from Russia within investigated by them "Khodorkovsky's case". All database on his clients, all monographs, all computers, all phones was withdrawn. Copies didn't remain", - told A. Rosenzweig at the press conference on Wednesday.

Thus A. Rosenzweig explained that the Russian law enforcement agencies accused I.Novikov and his wife Elena of lobbying of a humanization of the criminal legislation of Russia in Mikhail Khodorkovsky's interests.

According to A. Rosenzweig, the search was carried out on the basis of the resolution of Basman district court Moscow.

"Most of all revolts that the Kazakhstan financial police executed the resolution on a search in I.Novikov's apartment, the citizen of Kazakhstan - notice sovereign state, authorized by Basman district court of Moscow! The search was conducted by investigators of the Russian Investigative Committee, under the guise of our financial police. That is strictly prohibited by our legislation, "- he stressed. Furthermore, A.Rozentsweig said that based on the decision of the Basman Court of Moscow, was made seizure of his financial documents.

"The recess on my, foreign lawyer, accounts, also made on the basis of" Basman decision. "I made a recess of all documents in my account. They confiscated all the information about my tax liabilities, payments, etc. Was broken law mystery "- said A.Rozentsweig.

As explained A.Rozentsweig, Medeu Almaty district court dismissed the complaints filed by them four, and the opportunity to appeal the decision is available only in city court.

"Today in the city court will consider my complaint. We are unable to file a complaint in cassation and supervisory procedures. That in this situation remains for me? Only appeal to the UN. And I don't understand who is more of benefit and harm, because it's another to discredit our country, of which I am, and about the image that I care, "- he added.

³⁵ <http://on.fb.me/17tiYdB>, 01.10.2013 r.

In turn the president of the Union of lawyers of Kazakhstan Anuar Tugel emphasized that similar actions of law enforcement agencies are violation of the Kazakhstan legislation.

"Seizure of documents on banking transactions with the lawyer on the case, citing his client - a flagrant violation of the law, any orders, contradicting it shall not be enforced in any civilized country. In this case not only violated the rights of a lawyer, but also the rights of its principals, those he helped, who is not associated with this story. Broken advocacy secret "- he said.³⁶

Maya Blaschenko

17.10.2013. The Temirtau lawyer and civic activist Maya Blaschenko arrested as a suspect in a criminal case, it is accused of attempted fraud. Lawyer says she is being persecuted because of civic engagement.

Head of Consumer Rights Protection Society "Synergy" in Temirtau Maya Blaschenko accused of attempted fraud with real estate and causing "bodily harm" policeman. She lawyer, worked in city administration. Lawyer Maya connects persecution with her complaints of violation of the rights of their clients in the prosecutor's office and a branch of "Nur Otan".

During the period after consideration of these complaints the search in the apartment and M. Blaschenko's office, and even earlier, in September was authorized, it was attracted and interrogated as the suspect on a criminal charge.

17.09.2013 Blaschenko was recognized as a suspect in the art. 325 of the Criminal Code "Forgery, production or sale of counterfeit documents, stamps, seals, forms, state awards." In early October Blaschenko taken under arrest, first for three days and then for 10 days. In case of recognition guilty it is threatened by imprisonment for some years.

But the M. Blaschenko lawyer suggests that authorities harassed her civic activism, and the reason for this was the case of one client. The case is confusing, due to disputes over the one apartment. In October last year, this client M. Blaschenko challenged through the courts deal for the sale of apartments in Temirtau on the basis of receipts between it and the previous owners. Now he himself is accused of trying to take possession of the flat and Maya Blaschenkov suspected of complicity.

- Criminal proceedings instituted by forgery though according to the law can only forge official documents, and not released - said Elizabeth Akhmetov.

The lawyer Akhmetova says that in the brought charge is told that else heading department of control of housing programmes in city akimat in 2009, Blaschenko wanted to take control of this apartment.

Police officers carried out Maya Blaschenko's personal search 4.10.2013 on the street at the court building in Temirtau city, from where the woman left and got into the car. At a wheel there was her eldest son, on a back seat of the car two her minor children who became witnesses of all events sat.

According to E. Akhmetova, police officers in civil clothes by force pulled out M. Blaschenko from the car, forbade to call lawyers.

- One of employees began to pull out a bag, other employees instructed: "Pull out it by hands, for feet, don't stand on ceremony with it". It everything on video was removed by the eldest son M. Blaschenko, - E. Akhmetova speaks.

Police officers, according to the lawyer, claim that Blaschenko bit one of them. The lawyer rejects these charges, having told that the police officer "sufficed her for different parts of a body, including the person".

- Maybe, brushed her teeth. Law enforcement bodies have a right to detain and search the street people, but when the situation requires it. According to our client, these actions were provocative and deliberately planned to make it the basis for her detention. Ostensibly she resisted the authorities - says Elizabeth Akhmetov.

³⁶ <http://zonakz.net/articles/74624>

The same day, a search took place in Blaschenko's office and apartment. Events moved rapidly already. Search in the apartment ended on the night of 10.05.2013, civic activist with an increased police. 10.07.2013, was sanctioned arrest for 10 days. 12.10.2013, it was accused of a criminal nature, the arrest was extended for two months, said the lawyer E. Akhmetova.

Department of Internal Affairs of the Karaganda region after detention of the lawyer Blaschenko were extended by the message in which it is spoken: "the 40-year-old female lawyer actively resisted to a personal search, bit and kicked in a breast of the investigator of the Department of Internal Affairs".

It is claimed that during a search and detention police officers looked for "documents and the subjects having evidentiary value on business" about attempt to take control of the apartment.

Azattyk's correspondent didn't manage to receive the comment in police in the matter of the lawyer M. Blaschenko. The investigator of East department the Temirtau city police in which is the case, told that he couldn't answer questions. Couldn't tell anything in the matter of Blaschenko and in the press service of the Temirtau city Department of Internal Affairs .

National Bar Association protested against the Temirtau city authorities, considering them as a violation of professional secrecy, integrity of the person, premises, home and vehicle lawyer M. Blaschenko lawfully carries out its activities in a civil dispute.³⁷

Talgat Safarov

24.10.2013 Arrest of the known lawyer Talgat SAFAROV to Shymkent stirred up lawyer community of the most southern city of the country. Colleagues of the lawyer speak: "Talgat sits for that simply did the work and if now we keep silent, tomorrow will come for us".

Our main goal at this time - Safarov's lawyer, defended Zhandos Torehan's interests in 2007. Six and a half years later Zhandos suddenly remembered that the lawyer to whom he in 2007 entrusted the destiny, in those times of troubles allegedly brought it to suicide. The fact that 22.05.2007 Zhandos while in remand prison, swallowed spoons stalks and almost died. Then this story is not given value. Nowadays, however, a sudden flash memory Torehana was enough to clap Safarova in jail.

According to Torehan Talgat repeatedly visited him in jail and passed notes from Bekzat Maksat and threats. Say, if Zhandos not take the murder Aliyev, then with him and his family violence.

On a confrontation I ask Torekhan: "Why did you decide that these notes, if they existed at all, written or Maksat Bekzatov? They stood signature or handwriting you know these people? - The lawyer said Safarov Daulet Baiseitov.- The answer simply cut down me. "No, - Torekhan told. - Signatures there weren't, and I didn't know handwriting, but I felt that these notes from them". And on such conjectures of this person the consequence builds evidential base of a crime!

Certainly, those "letters from outside" could become an incontestable proof in business. However neither Torekhan, nor the investigator couldn't show them to lawyers. According to Zhandos, Safarov burned notes at once after reading in the same place, in a jail.

- It is impossible to carry by in a pre-trial detention center even a match, - the member of regional lawyer board Melisse SEYTJANOV speaks. - On an entrance there is a thorough examination of all without exception of visitors, and here directly in the room of meetings, two steps away from supervisors, Safarov made fire! Same full absurdity!

Another discrepancy: Zhandos tried to kill himself, the 22.5.2007, but the order for the provision of legal services Safarov received two days after a suicide attempt. Meanwhile, without a warrant any lawyer to sideltsem not admit it and immutable rule.

Shymkent lawyers amazed by the fact that at first glance to quite ordinary criminal case connected metropolitan aces of the Investigative Committee of the Ministry of Internal Affairs of Republic of Kazakhstan.

- Moreover, on interrogations the unknown companion "conducts" process, asking questions to Safarov and directing work of the investigator, - the lawyer Bayseitov speaks. - I

³⁷ <http://rus.azattyq.org/content/majja-blashenko-advokat-temirtau/25138711.html>

took an interest in his name, a position and suggested to record the fact of its presence on interrogation. "Conductor" answered nothing, left an office, and then again returned.

To get somebody on the phone of Astana "ponderable" not succeeded, and only in a group investigator from South Kazakhstan Department of Internal Affairs Kanat DUMCHEBAEV was extremely reticent.

- 08.10.2013, the court sanctioned the Safarov's arrest - said Dumchebaev. - He is suspected of being forced to give false testimony related to charges of a particularly serious crime. Respecting the secrecy of the investigation, no further details.

This accusation is unfounded and premature confident colleagues arrested lawyer. They state: no material evidence of a crime is not, and everything is built only on unsubstantiated statements Torehana.

- Tomorrow, using this circuit, any of us can plant - says lawyer Sapar AMIRTAEV. - Any client stipulate us - and we are already behind bars! This is an attempt to point out to all the lawyers in their place. I recently acquitted one defendant, and recently received information that under me start digging!

- All of us try to make pocket, - Melisse Seytjanov is indignant. - Process over Safarov can become a bridle for control of the most courageous lawyers. According to my data, already now some colleagues try in all possible ways to leave from participation in contentious cases with such clients as persons involved in Safarov's business.

In history about Aliev's murder, and also in the following after events many dark patches. So, two investigators, taking part in investigation of criminal case, perished in an accident. Perished from carbon-monoxide fumes blocked in a conflagrant auto well-known advocate from Shymkent Nikolay KEMER, that was a Tasymov's defender. Another is an advocate MOLDABEKOV, complicit on business about murder of Aliev, - already three months sits in jail, and Zhandos Torehan hides from the world on a secret apartment that is given him within the framework of the program the defence of witnesses.³⁸

Trade union activists

Murat Mashkenov, Larisa Kharkova, Andrey Bakaev.

The project of law "On trade unions" outlived a few corrections and three ministers already. Present head of Ministry of Labor Tamara Duisenova accelerated the prosecution of document, that was liking not Confederation of labour and Confederation of free trade unions. Norms of new legal act plunged their leaders in bewilderment.

According to the new document, labor unions have to be now as it is possible are more closely integrated, in an ideal - in general in one federation. The charter and the main activities of the trade-union organization will be defined too not independently, and republican association. Organizers of a press conference called such approach by monopoly.

- Will tire out in one labor union as tired out businessmen in "Atameken", - the president of Confederation of free labor unions of Kazakhstan Larisa Harkova explained.

The bill enters a set of new concepts. Some - on the verge of a joke. For example "primary trade-union cell".

Now people understand more, such like a bank cell, and it words from Lenin time, - the chief legal inspector of the Almaty union of labor unions the bill "About Labor Unions" made a helpless gesture endured already some editings and three ministers. The present head of Ministry of Labor Tamara Duysenova accelerated work on the document that was to the taste not to Confederation of work and Confederation of free labor unions. Standards of the new legal act cast their leaders into bewilderment.

There are contradictions in the law itself. If Article 4 proclaims equal legal opportunities for trade unions, article 12 of the draft set: Republican can only union organization having more than half the regions of Kazakhstan. Such a restriction is contrary to the Convention and the

³⁸ <http://www.time.kz/articles/strana/2013/10/24/nakat-na-advokata>

number 87 of the ILO and the International Covenant on Economic, Social and Cultural Rights and the Universal Declaration of Human Rights. But apparently it is of little concern to developers.

By the way, representatives of the International Labour Organization participated in a round table on law discussion, but all their remarks were gone in vain - on a site of Federation of labor unions of Kazakhstan there were only thankful responses of foreigners about warm welcome.

- For what it? The government is interested to have as little as possible social partners. And it is even better - one, compliant, affiliated which won't be to argue with anybody, - Murat Mashkenov called things by their proper names, having right there made a reservation: -We don't speak about confrontation, we aren't going to climb because of it on barricades, but it is impossible to allow such nonsense! This bill doesn't correspond to international law.

Really, discrepancies dime a dozen. That stand, for example, a ban on foreign financing of labor unions (we will notice from themselves - Lenin " primary" returned, and international solidarity - on the contrary) or the state registration of labor unions!

- This is nowhere in the world does not exist! State finds again the whip and yoke for undesirables - Outraged Mashkenov. - The charter should already be "scored" in which industry you republican trade union memberships. This is called: each hen his perch, and one rooster that will command this roost.

Among other things, the law strengthened the responsibility of trade unions for action - including criminal proceedings, if the action deemed "destabilizing." Criteria as it is now accepted in the Kazakh laws, utterly blurred. According Bakaeva, articles full of combinations such as "may," "could," "as a rule".

Turning to the few journalists, speakers expressed the hope that their arguments will be heard. For its part, they promised to seek adjustments to the law before the adoption in parliament - through aides MPs Communist People's Party of Kazakhstan.

One more "defect", in his opinion, this division of labor unions on a branch sign whereas territorial unions are more active and effective.³⁹

Zholdas Tadzhikov and Tlepai Utepov

In the oil companies "Karazhanbasmunai" in Mangistau again started worsening conflict. The fact that this company is the primary trade union organization of independent regional trade union "Aktau", and members of the organization Zholdas Tadzhikova and Tlepai Utepov began unlawful pressure and threats from the security company.

Two months ago, members of the primary trade union organization "Aktau", including Zh.Tadzhikov and T.Utepov, together with other employees and departments UTT OS "Karazhanbasmunai" (created specifically for retired after Zhanaozen events), wrote a letter to Akim of Mangistau region -Alik Aydarbaevu.

In the letter they asked to deal with these questions: "why the company decided the collective agreement without discussion with the workforce?". Especially against the collective agreement adopted by the Heads of Rustem Khasenov with the chairman of the "yellow" of the regional council of trade unions Sultan Estaevym Mangistau region, which is part of FTURK (Federation of Trade Unions of the Republic of Kazakhstan), speaking about 80% of the workforce.

Also working activists brought up such questions: "why the employer doesn't pay holiday days for especially harmful conditions? " and "why there is a discrimination on trade-union accessory, depriving of privileges of members of independent labor union?"

By the way, employees of JSC Karazhanbasmunay, and the answer from Akim didn't receive area, but learned in a month that their letter is redirected to regional department of work and social protection where they were told that else there is a company check.

³⁹ http://bureau.kz/data.php?page=0&n_id=6313&l=ru

After that, members of the independent trade union wrote a letter to the Director General of JSC "Karazhanbasmunay."

In reply security service of the company accused Zholdas Tadzhirov and Tlepai Utegov of promotion of idea of a strike and of an attuning of workers against the management. Security service still orally declared that will transfer materials on them to Committee of National Security.⁴⁰

Berdygul Tlemov

As expected the regional trade union leaders of the Independent "Aktau", as well as their counterparts from other regions guide LLP "South - East Service Group" has moved from words to deeds. Yesterday 13.10.2013, the landed "landing" - about 10 people, among whom was General Director Andrey Tishchenko and his deputies and assistants, as well as what's interesting and not surprisingly chairman of the Regional Council of Trade Unions Kalbai Akhatov.

As a result of all problems of the company accused the activist of primary trade-union organization of labor union of "Aktau" Berdygul Tlemov, in this primary organization more than 100 people consist. Including in an unauthorized precautionary strike which the head of the company refuses to recognize. After such charges and various threats at Berdygul pressure rose, and it was taken away by ambulance in hospital.

In addition it should be noted that Andrey Tishchenko said that refuses to recognize the primary trade union organization of the trade union "Aktau" that violates the law of Kazakhstan. We conclude the employer provokes social discord as criminal omission authorized state agencies.

POLITICIANS

Mukhtar Tayzhan

07.10.2013 the specialized Almaty administrative court passed the decision to fine Mukhtar Tayzhan for participation in protest action against start of the Russian carrier rocket "Proton". About 87 thousand tenges (more than 550 dollars) obliged to pay it.⁴¹

Vladimir Kozlov

7.10.2013 On the page on Facebook Aaliya wrote that Vladimir Kozlov called. According to him, on strange combination of circumstances, almost the next day after the previous reprimand was removed, he received the new. Reprimand, according to Aliya, was taken out in absolutely formal occasion: "The roll fell on a foot to Volodya in operating time heavy chain-link grids, from surprise and pain it swore, for what was at once directed by the activist who all this time, in regime department" doesn't depart from it.⁴²

Management Committee of the penal system of MIA RK refused opposition politician convicted wife Aliya Turusbekova a request to transfer Vladimir Kozlov in Almaty region colony - the place of residence.

Recall that if you follow the letter of the law, policies, Kozlov had to be immediately sent to the colony of Almaty region, but as you know, is working against him is not the law- political order.

As it is reported in the letter signed by the vice-chairman of Committee of the penal system Mr. Dzhanibekov, the condemned all term has to arrive to volume establishment where it originally directed. As the reason of the translation the illness (Vladimir Ivanovich repeatedly asked for medical care, but as one of so-called doctors declared, in prison it isn't accepted to complain of health) or safety threat (this "good" round Vladimir Kozlov much and if not the close attention from the international community, still isn't known, what methods of "education"

to it would be applied) can serve. But neither the first, nor the second Committee of the penal system didn't see.

Well, the fact that the politician's wife is pregnant and soon will not be able to go on a date with her husband to distant lands, the authorities do not care. More precisely, this is what it looks like, and the payment is made: another way to sophisticated bullying - deprive of visiting relatives.

By the way, in mid-September in response to the request of the portal total. Committee of the penal system said that Kozlov may not translate into a colony in the community, because there are no empty seats! And almost immediately became clear that the place still is - would desire, but this desire in CCES just not.⁴³

24.10.2013 From V. Kozlov want to remove repeatedly a legal cost for trial in Aktau. The spouse knew of it from his letter. A. Turusbekova addressed in "Alliance Bank" and received official confirmation - everything is paid long ago. It seems that the authorities can't think up how still to pressure the disgraced politician who has been already condemned on seven imprisonments since excess years.

In one of Aaliya's last telephone conversations with the husband, Vladimir Ivanovich told her that concerning it any claim for 800 000 tenge is submitted. Later already from his letter it became clear that it is a question of the legal cost allegedly not paid to them still.

According to A. Turusbekova, all money was paid long ago. "For payment of this sum judicial performers gave me 5 days — she remembers — It was in January, 2013. The sum was paid and the receipt on payment gave to judicial performers. But, probably, someone wanted that we paid this sum once again".⁴⁴

Aron Atabek

25.10.2013 Well-known political prisoner Aaron Atabek (in the world - Aaron Edigei) left one of the most violent prisons in Kazakhstan, and is currently in jail Karaganda. He convoyed here from so-called "closed" prison Arkalyk. But whether Atabek return to the colony in the village Karazhal Karaganda region, where conditions are much easier than in a "closed" prison - is unknown. Most of his 18-year term served in Atabey colony Karazhale but twice moved as punishment for "misconduct" in Arkalyk prison known as the prison within a prison.

About that Aron Atabek is in Karaganda, Azattyk was told by the head of the department of criminal and executive system of the Karaganda region colonel Kabdrakhman Shotayev. Atabek is transported under guard in a pre-trial detention center Karaganda because in the Karaganda regional court the complaint to Atabek's further maintenance in prison Arkalyk will be soon considered.

- Now he is in a pre-trial detention center in Karaganda. Both there will be a stage in Karazhal, and will leave, – the colonel Shotayev speaks.⁴⁵
